

ONE FARE RATE FOR ROUND TRIP IS GRANTED FOR TEACHERS' MEET

Corporation Commission Is Instrumental in Getting Concession Never Before Allowed by Railroads.

UNPRECEDENTED CROWDS EXPECTED THIS YEAR

Greatest Program Ever Offered Prepared by Committee in Charge of Arrangements for Convention.

Santa Fe, Oct. 27.—Secretary Wagner of the New Mexico Educational association, and other officials of the association were related today at the announcement that the railroad of the state had granted a one-fare rate for the round trip from all points in New Mexico for the life teachers' convention which is to be held in Albuquerque from November 20 to December 24. The tickets will be on sale from November 15 to November 22, the final return limit being December 1.

This is the first time that such a concession has ever been granted to the teachers of the state and the concession is a very liberal one. The rate is the same as that allowed for the state fair, and is evidence of the confidence that the railroad has in the state. The rate is a concession that has never before been granted to any other organization in the state.

A program equal to the best that has ever been presented at similar conventions in the most popular state has been arranged, and it is certain that the city will be taxed to accommodate the great throng of visitors that will be on hand.

The department of education today gave out the general program for the convention of the New Mexico Educational association at Albuquerque, New Mexico, November 20 to December 24.

On November 20, Saturday, the educational council will meet both forenoon and afternoon and do much of the session work of the convention.

SOLD CHEAP WHISKEY FOR GOOD; INDICTED

TRY MORNING JOURNAL SPECIAL LEADERS WIRE.
New York, Oct. 27.—Three officers and eight salesmen of two whiskey concerns were indicted today on a charge of using the mails to defraud. About \$200,000 is said to have been obtained since 1907 through the sale of cheap whiskey as high grade and by the manipulation of notes by liquor dealers.

All of the officers—Adolph Felix and Leonard Prince—were released on bonds. The bond of Felix, who pleaded not guilty, is \$25,000 and the bonds of the other Prince, \$10,000 each. The eight salesmen have not been apprehended.

Schenck reported, it is declared, that they were in company with distillers in Louisville and Cincinnati. Federal agents maintain the companies purchased their liquor from distillers and sold it for twice the amount they paid for it.

In several cases, it is alleged, notes given for liquor were discounted at local banks and delivery never made.

VILLA TROOPS TO BE DISARMED IF THEY CROSS THE ARIZONA BORDER

Rumor Has It That American Boundary Line May Be Violated by Chihuahua Chieftain.

GENERAL FUNSTON HAS DISCRETIONARY POWER

Should United States Territory Be Violated Mexicans Are to Be Shot Down If Resistance Is Offered.

Washington, Oct. 27.—Should Villa troops cross the border and attack the Mexican town of Agua Prieta from the Arizona side, or press reports from the Arizona side indicate that they might do so, they would be treated as outlaws, disarmed and in the event of resistance, shot down by United States troops. Officials at the state and war departments made this clear today, although no official advice had been received that such developments were in prospect.

Funston in Full Control.

Major General Funston, commanding the American border forces, has full authority to take any necessary steps to prevent violations of American territory by Mexican armed forces, short of actually invading Mexico.

An order to cross the border would have to come from Washington, but if rebels fall on the American side, the army will be authorized to pass the line of the border.

Border Situation Changed.

With the recognition of the Carranza regime as the de facto government of Mexico, the border situation is somewhat changed. Should armed men in rebellion against Carranza cross the line they would be considered outlaws.

Should Carranza soldiers be defeated and forced to flee into American territory they would be disarmed but permitted to return to Mexico at some other point on the border where their arms would be returned to them.

The United States does not recognize a state of belligerency against the Carranza government and there would be no question of internment.

Would Train Guns in Villa.

In the event of a battle at Agua Prieta, in which General Funston is authorized to use his own force to protect American lives and property, it is said that they undoubtedly would be trained upon the outlaws, not upon the Carranza forces.

Today that General Funston of Texas might decide to ask President Wilson for a side arm of the federal troops near Brownsville, where bandit raids have been frequent.

Should declare martial law. Such officials suggested that the governor might himself declare martial law within a restricted zone and ask the aid of the federal government in rounding up the bandits and outlaws therein.

Such a step would establish federal martial law in making a request for which the constitution requires that a governor must certify that every resource of the state has been exhausted without avail.

It is officially said today that the army will be authorized to supply the army with water and other necessities, and that the army will be authorized to supply the army with water and other necessities.

The troops which reached the border, variously estimated to number from 1,000 to 3,000 men, were charged in clearing an old well to supply the army with water and other necessities.

TEUTON FORCES JOIN BULGARIANS AND OPEN WAY TO TURK ALLIES

Serbian Are Making Desperate Resistance and, Together With French, Are Winning in South.

CONSPIRACY AGAINST KING FERDINAND

Kaiser's Forces Continue Attacks, Directed Against Divinsk and Riga, and Break Russian Lines.

TRY MORNING JOURNAL SPECIAL LEADERS WIRE.
London, Oct. 27 (10:10 p. m.)—The German army, which crossed the Danube at Orsova, has joined hands with the Bulgarians, who invaded Serbia near Prahova, and the central powers now have an open road through northeastern Serbia and Rumania to the Aegean and Constantinople.

The invasion of the northern portions of Serbia by the Austro-Germans continues while Bulgaria is putting forth a strong effort to secure control of additional sections of the Belgrade-Sofia railway.

Big Battle in Progress.

So far at the north is concerned, Serbia is in a perilous position. It is feared by her allies, reinforced by the British and French, who are now fighting by her side. Serbia is using all her strength to throw the Bulgarians back. After the French victory at Krivolak, the Serbians, according to the Athens report, were able to re-occupy Vuk, an important railway and road junction just south of Utopia, where a big battle is still in progress.

It is argued here that if the Bulgarians can be held in the south until Anglo-French reinforcements, which are now on the way, arrive, Bulgaria may yet be robbed of Macedonia, on which she has set her heart. The allies will also have to attempt to block the German road to Turkey and their big attack may be directed elsewhere.

Troubles in Bulgaria.

The internal situation of Bulgaria, which is reported serious, may have some effect on the campaign. A military conspiracy against King Ferdinand, Athens dispatches say, has been unearthed and the leaders have been shot.

Many of the inhabitants of Bulgaria are said to be still loyal to Russia and are showing disinclination to join the colors.

The Humanists, too, are displaying some uneasiness as to the activity of their government and an agitation in favor of the allies is being carried on according to unofficial reports by influential leaders.

Cannot Weaken Front.

The allies, however, are depending on their own resources and arranging to throw into the Balkans as many men as can be spared. At the present time they cannot weaken the other fronts, as the Germans are showing considerable activity. The latter have made still another counter-attack in the attempt to capture La Containe, in Champagne, which the French recently took from the Germans.

While the position in this region remains serious for the Russians, they appear on the whole to be holding their own.

In the south, on the other hand, along the Rur river and Gaidin frontier, the Russian report speaks of repulsing German attacks and carrying through their own attacks.

The Italians are persisting in their offensive, and, although their progress is slow, they seemingly are making advances.

TEXAS WILL PAY \$1000 FOR LEADERS DEAD OR ALIVE

Governor Ferguson Puts Price on Heads of Luis de la Rosa and Aniceto Pizano, Fomenters of Trouble.

TRY MORNING JOURNAL SPECIAL LEADERS WIRE.
Austin, Tex., Oct. 27.—Governor James E. Ferguson, on his return from San Antonio, where he conferred with Maj. Gen. Frederick Funston, concerning the border, announced that he had directed a communication to President Wilson requesting him to appoint a general commission, as head of the recognized government in Mexico, to cooperate with the United States army and Texas authorities to suppress disorders in the border.

In addition, Governor Ferguson issued a proclamation which offered a reward of \$1,000 American gold for the capture of Luis de la Rosa and Aniceto Pizano, alleged leaders in recent bandit raids and coupled with the reward an appeal to Mexican citizens to render aid to American authorities in restoring order along the border.

The proclamation was issued in the state's efforts to promote better feeling between the Americans and the peaceful Mexican of the Rio Grande valley. The reward offer, it was hoped, would lead to the capture of the two men, who were believed to be fomenting trouble in the border.
